State Management: Redux Toolkit, React Query, Context API, Zustand

Markup & Styling: HTML5, CSS3, Sass, Bootstrap, Tailwind CSS, Material UI

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, JWT

Databases: PostgreSQL, DynamoDB, Cosmos DB, MongoDB, MySQL

Cloud & Tooling: AWS, Azure, Firebase, Git, GitHub/GitLab, Fastlane, CI/CD, CodePush, Expo OTA, Sentry

Testing & Process: Jest, Agile / Scrum, Jira

Payments: Stripe, Samsung Pay, Apple Pay, Google Pay

Employment History

Independent React Native Developer (Freelance)

Jul 2024 – Present | Ireland

- Developing production-ready React Native applications with a focus on performance, architecture, and scalability.
- Built BESTIE, a loyalty app supporting NFC & QR point collection, vouchers, and multi-location expansion.
- Improved app launch time by ~30% and reduced bundle size by 20–25%.
- Implemented secure OAuth authentication, cloud media uploads (AWS/Azure), and CI/CD pipelines (Fastlane, CodePush).
- Delivered Smart-Cart & e-commerce apps with payments, subscriptions, and real-time delivery tracking.

Senior Software Engineer – React Native (Contract)

Ejada | Amman, Jordan | Apr 2024 – Jul 2024

A leading MENA-region IT services firm with 3,500+ employees, focused on banking, telecom, and government digital transformation.

- Integrated Samsung Pay SDK into a React Native digital wallet in a regulated banking environment.
 - Delivered subscription payment integrations (Netflix, YouTube).
 - Resolved critical production issues using Firebase Crashlytics and Android Logcat.
 - Managed builds and releases via GitLab CI/CD in Agile sprints.
-

React Native Developer

ESKADENIA Software | Amman, Jordan | Jan 2022 – Apr 2024

A CMMI Level 5 certified software company with 300+ employees serving telecom, insurance, healthcare, and education across Asia, Europe, and Africa.

- Contributed to Orange Money app (1.5M+ users), reducing bundle size by ~25% and improving UX.
- Refactored legacy code to TypeScript, significantly improving app maintainability and reducing runtime errors.
- Built Virtual Wallet & POS systems including balance transfers, vouchers, and Bluetooth receipt printing.
- Implemented custom native bridges (BlinkID, OCR SIM onboarding, POS hardware).
- Mentored 3 junior developers, improving code quality and reducing pull-request turnaround by 30%.
- Led and managed App Store and Google Play releases for telecom-scale apps.
- Collaborated across React Native, Angular, and Java Spring Boot stacks during high-pressure sprints,

React Native & 2D Games Developer

Roya TV & Media Group | Amman, Jordan | Feb 2021 – Jan 2022

Jordan's #1 TV channel and digital media group with multiple platforms including Roya Kitchen, Kids, News, and Waves.

- Built features and 2 interactive games for the Roya Kids mobile app.
- Implemented in-app purchases, offline-first cart flows, and audio recording features.
- Extended functionality to the React.js Roya Kids web platform.

Junior Front-End Developer

Wavemaker (GroupM) | Amman, Jordan | Aug 2019 – Feb 2021

A global media agency under WPP Group with operations in 90+ countries; Amman branch part of MENACOM Network.

- Developed React.js SPAs for booking and banking platforms.
- Built animated UI experiences and rich media advertising creatives.

Additional Experience

Logistics & Systems Operator (Weekend) – Manor Farm, Ireland | Apr 2025 – Present

- Operate barcode scanning and digital stock systems; ensure data accuracy and system reliability.

Education

B.Sc. in Computer Information Systems – Al Al-Bayt University, Jordan

Certifications

- Next.js & React – The Complete Guide – [Udemy Certificate](#)

Languages

Arabic (Native), English (Fluent)

Additional Information

Interests: Comedy, photography, traveling, gaming, continued learning in software engineering.

Work Authorization: Eligible to work full-time in Ireland (no sponsorship required).
